Email: vershima.tingir1@gmail.com

- A proactive, adaptable and conscientious individual who has proven ability to work under pressure. In addition an analytical, competent and highly motivated individual that gets on well with little or no training. Seeking to gain employment within an expanding and forward thinking organisation in order to make an impact with my skills, innovation and hard work.
- I am a talented software developer with a strong academic background and some commercial experience. Ability to think through a problem coupled with the confidence to make ideas heard. A proven ability to maintain and enhance company software with the aim of improving operational functionality in line with business requirement.
